# FOREWORD

Even though the trade (Export Import) data is made available by D/o Commerce on its website, no separate data was publically available in respect of Special Economic Zones (SEZs) and Export Oriented Units (EOUs).

Commerce Secretary in his letter to Chairman EPCES dated 21.1.2023 (copy attached) advised EPCs for setting up of a Research Cell within the EPC that would regularly feed into policy inputs and to facilitate the EPCES to as a nodal point to frequently interact with the Department of Commerce and line Ministries /Departments.

Accordingly, EPCES set up a Research Cell and requested D/o Commerce to advise NSDL/SEZ Online and DGCIS to make SEZ and EOU data to EPCES. EPCES has started getting EXIM data in respect of SEZs and EOUs from NSDL and DGCIS office.

This has enabled EPCES to start publishing monthly trade bulletin in respect of SEZs and EOUs. While NSDL/SEZ Online is able to provide monthly data in respect of SEZs around 10th of the following month, data in respect of EOUs and SEZs is available from DGCIS only after more than 60 days after due examination by DGCIS. Therefore, the data is till April 2024 in respect of SEZs.

Based on the present data made available from NSDL and DGCIS, an attempt has been made by EPCES regarding publication of monthly trade bulletin regarding the monthly analysis of country-wise, commodity wise EXIM data. Data in respect of exports of Services has also been analysed. Based on the suggestions from stakeholders and the availability of data, the analysis will be further refined and presented.

EPCES is grateful to NSDL/SEZ Online and DGCIS for making available the data.

2<sup>nd</sup> January 2023

Dear Shri Seth,

The global economy is innately tied to trade, and trade has grown remarkably, completely transforming the global economy. Moreover, about 70% of international trade today involves Global Value Chains (GVCs), as services, raw materials, parts, and components cross borders – often numerous times.

2. The emergence and persistence of GVCs significantly changes how we develop trade policy. Success in international markets today depends as much on the capacity to import world class inputs as it does on the capacity to export. As such, role of EPCs should not be limited to export promotion alone and it should look at trade in a broader and more comprehensive manner.

3. In this regard, we would encourage EPCs to closely monitor international trade, particularly export decline, import surge, market diversification opportunities, global import demand and prospects, and avenues for GVC participation etc.

4. EPCs may consider developing a Research Cell with more intensive research and market intelligence capabilities within the EPCs that would regularly feed into policy inputs and to facilitate as the nodal point to frequently interact with Department of Commerce and line Ministries/Departments.

5. I am looking forward to your timely response and continuous cooperation in this initiative.

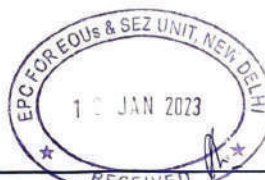

With regards,

Yours sincerely,

[ Sunil Barthwal ]
